Outline

1

LinkedIn Carousels: Boost Your Professional Storytelling in 2025

- Carousel posts top LinkedIn for engagement
- Perfect for sharing insights, case studies, or step-by-step guides

2

Why Carousels Work on LinkedIn

- Document and carousel posts draw highest interactions
- Visual, swipeable format keeps users engaged longer
- Ideal for breaking complex topics into digestible slides

3

Start with a Strong Hook

- Bold, curiosity-driven headline on slide 1
- Ask a provocative question or share an eye-catching stat
- Use clear value proposition: what will viewers learn?

4

Clear and Concise Messaging

- One idea per slide to avoid overload
- Keep text short—easy to scan and remember
- Each slide should add value or build the narrative

5

Compelling Visuals Make the Difference

- Use high-quality visuals or infographics to illustrate points
- Consistent colors, fonts, and logo for brand recognition
- Visuals support message, not distract from it

6

Tell a Story or Deliver Actionable Value

- Use a step-by-step, before/after, or problem/solution structure
- Provide tips, insights, or how-tos your audience can use now
- Frame slides as a mini-learning journey

7

End with a Strong Call to Action

- Clear CTA prompts the next step (connect, comment, download)
- Encourage feedback or shares to boost reach
- Always invite further engagement at the end

8

Pro Tips for Maximum Impact

- Respond to comments to build engagement
- Use relevant hashtags and tag partners for greater reach
- Test and iterate: Track results to improve future carousels

What do you want to talk about?

What is a LinkedIn Carousel?

A carousel post on LinkedIn allows you to upload a PDF file, and each page of the PDF becomes a slide that users can swipe through on desktop or mobile. These are commonly used for: Sharing tips, guides, or tutorials
Visual storytelling, Product showcases, Slide-based content marketing , Steps to Create a LinkedIn Carousel Post
Plan Your Content ,Decide the message you want to convey. Break the content into digestible slides (like a mini-presentation or infographic). Design Your Slides Use tools like [Canva](#), PowerPoint, [Figma](#), or Adobe Illustrator.
Slide size recommendation: 1080 × 1350 px (portrait) or 1080 × 1080 px (square).Keep text minimal, bold, and clear. Use visuals or icons.Export as PDF

LinkedIn Carousel Posts: A Guide To Creating Engaging Content

T B I U S

Want to boost engagement on LinkedIn?

This guide will show you how ↓

LinkedIn Carousels are a game-changer for sharing content.

Many aren't using them to their full potential, missing out on higher engagement and lead generation.

Here's how to create a LinkedIn Carousel Post:

Step 1: Plan Your Content

↳ Decide on your message and break it into digestible slides.

Step 2: Design Your Slides

↳ Use tools like Canva or PowerPoint. Recommended size: 1080 × 1350 px (portrait) or 1080 × 1080 px (square). Keep text minimal and use visuals.

Step 3: Export as PDF

↳ Ensure each slide is a separate page in the PDF.

Step 4: Upload to LinkedIn

↳ Start a post, click the "document" icon, upload your PDF, and add a title.

Step 5: Write an engaging caption with a hook and CTA.

↳ Add relevant hashtags.
