

Steps to 10X Your LinkedIn Engagement (Without Being Salesy)

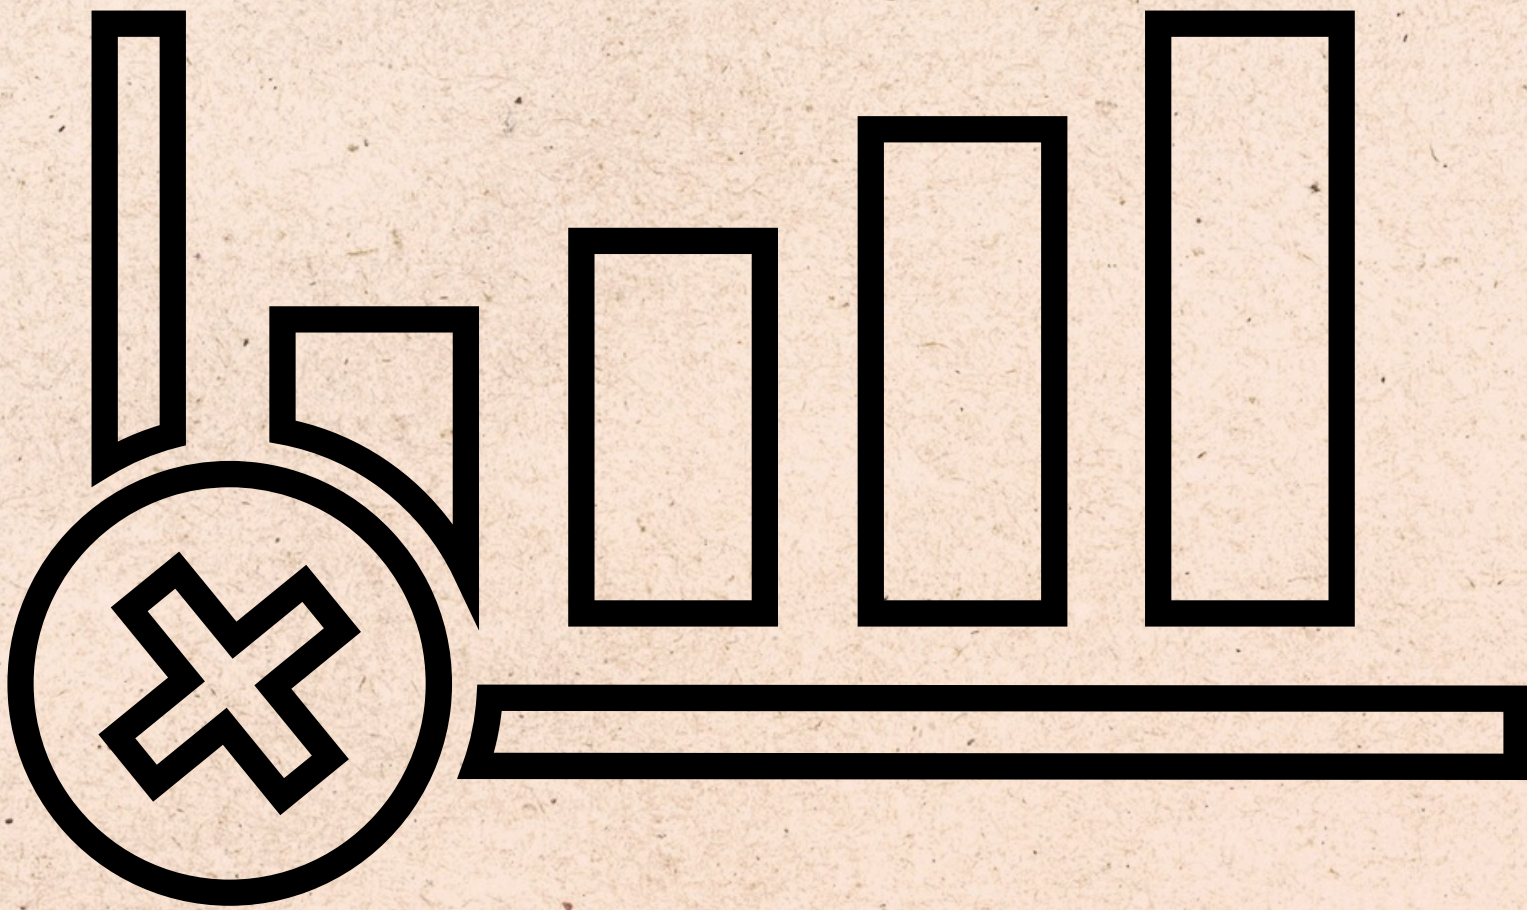

DEPOST.AI

The Cold Truth

92% of creators engage *WRONG*.

→ Liking/commenting ≠ **growth**.

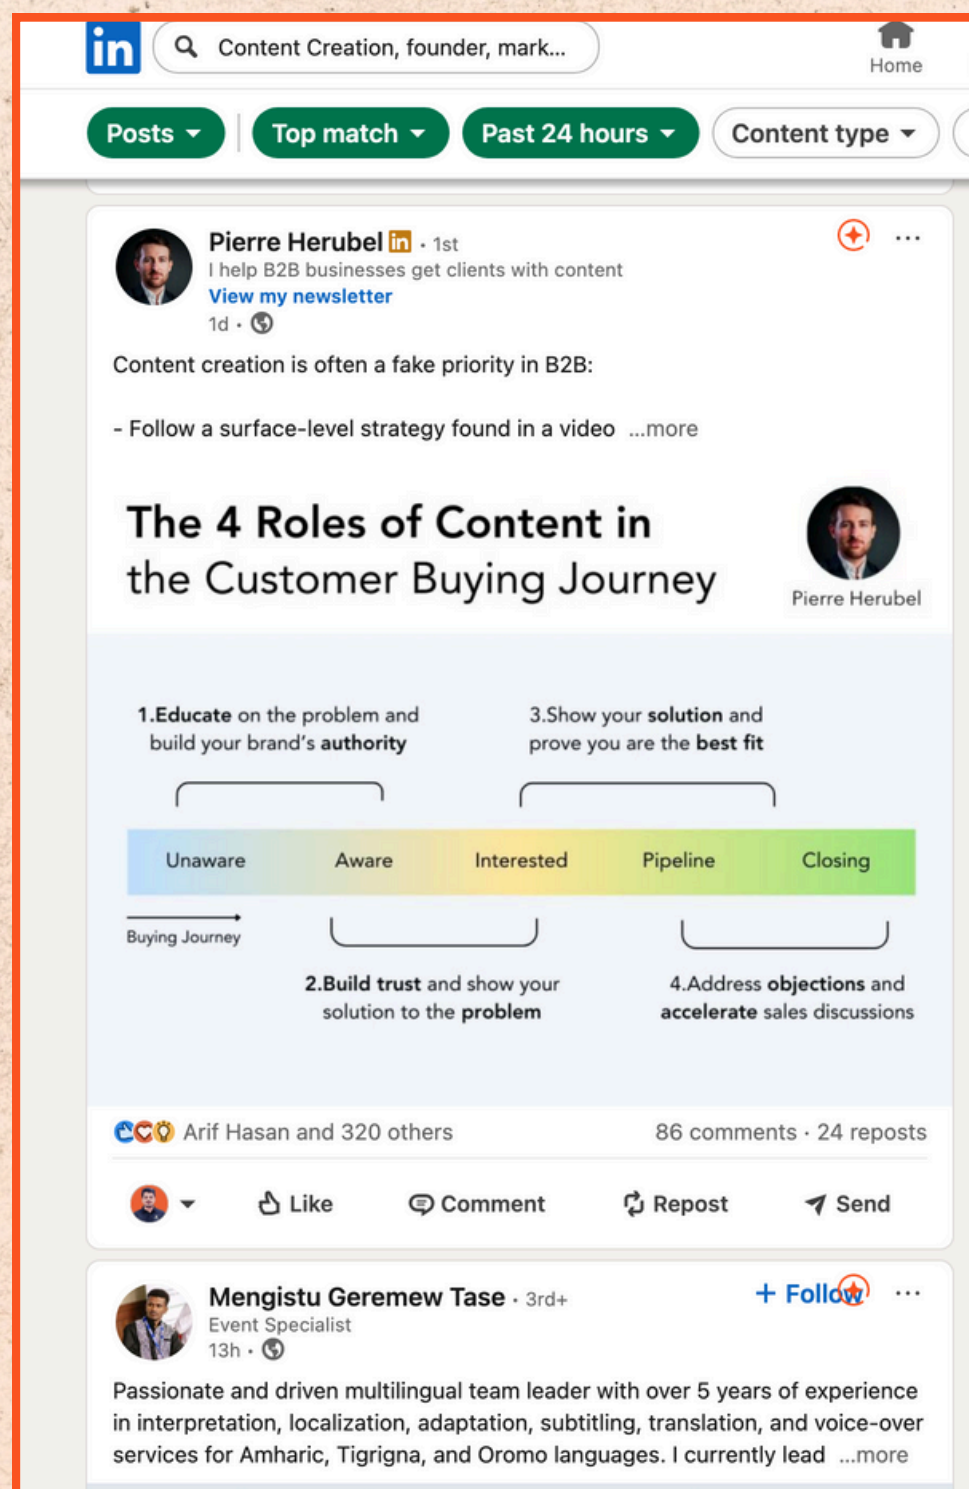

Here's what actually works

Step 1: Hunt Conversations, Not People

Stop cold-DM'ing. Instead:

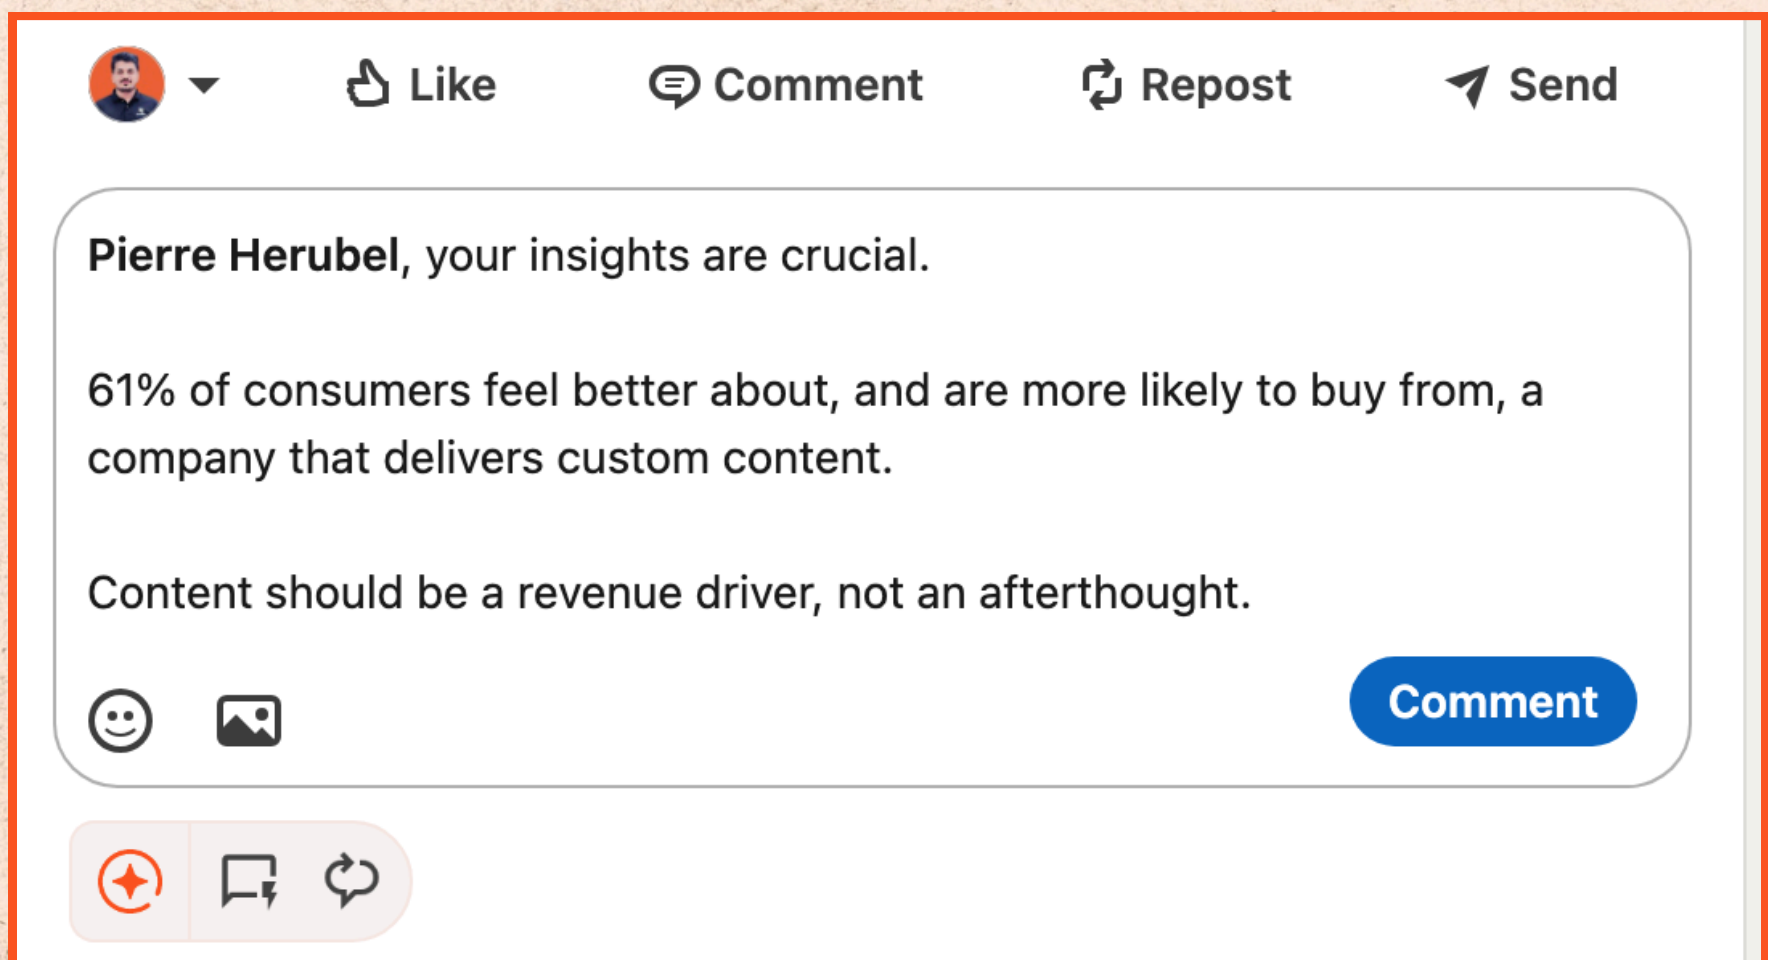

- Search [Your Industry] + pain point
- Filter → 'Posts' → 'Past 24 hrs'
- Engage ONLY where you add value

Step 2: The 80/20 Comment Rule

*Weak comments = wasted
time. Win with:*

- Personal stories
- Data-backed counterpoints
- Curious questions

Depost AI Hint: Auto-generates context-rich comments in YOUR voice

Step 3: Become a Value Sniper

Quality > quantity:

- 10 thoughtful comments/day > 50 generic
- Spend 3 mins crafting each
- Always end with a hook ("Have you tried...?")"

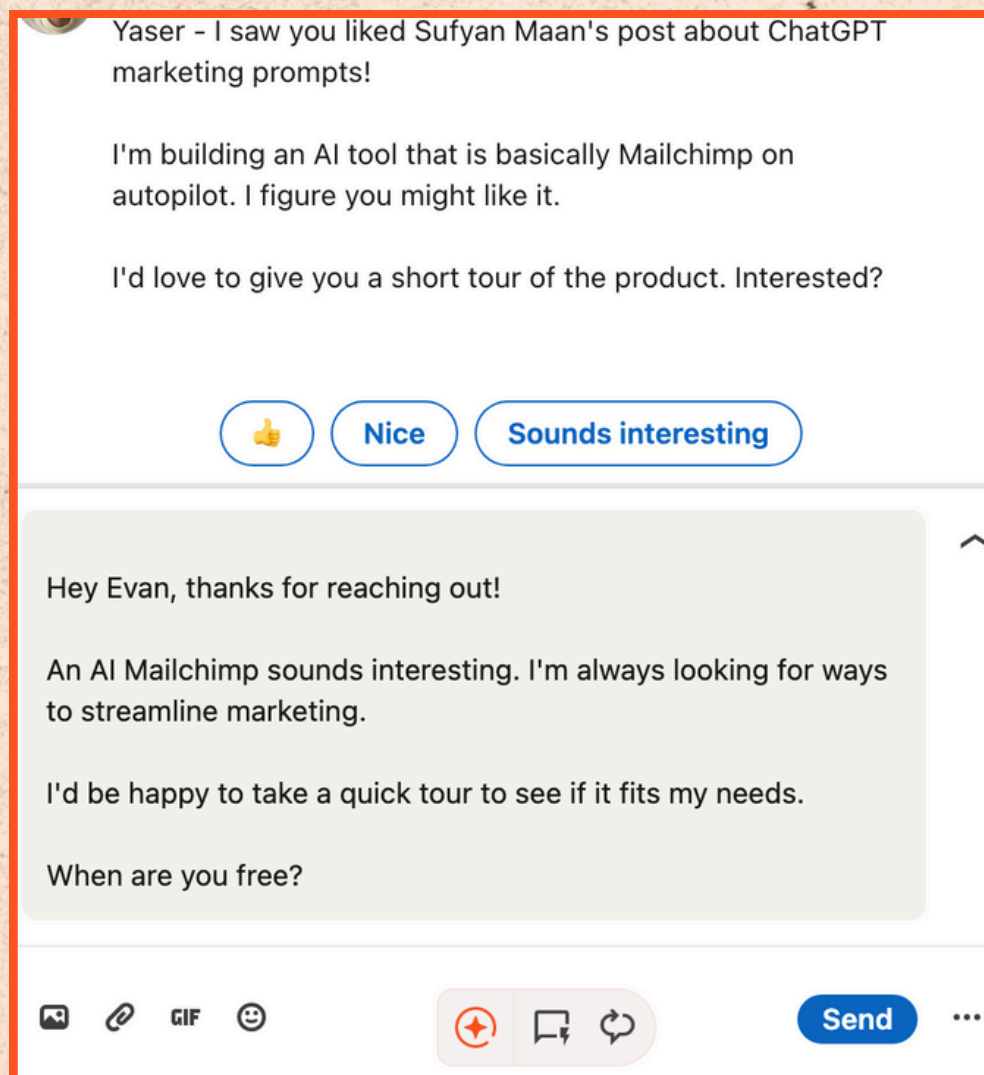

**Depost AI Hint: Create as many
thoughtfull comments with one click**

Step 4: Trigger DMs Strategically

Turn comments → connections:

- Comment meaningfully
- Wait for reply
- DM: 'Building on our convo...' + value nugget.

Depost AI Hint: Human-like DM replies that feel authentic.

Step 5: Engage Like Clockwork

Consistency beats intensity:

- 15 mins/day > 2 hrs/week
- Peak times: 8-9AM / 12-1PM / 5-6PM local
- Batch engagement 3x/week

Step 6: Track Your 'Engagement ROI'

Measure what matters:

- Profile views from comments
- DM conversations started
- Quality connections made

Step 7: Double Down on Winners

Scale what works:

- ID your 3 most-replied comments
- Reverse-engineer their structure
- Replicate across similar posts
